**1.4.1 Feedback on the Syllabus and its Transaction and Action Taken Report**

**ACTION TAKEN REPORT**

**PARENT'S FEEDBACK**

<b>Suggestions</b>	<b>Actin Taken</b>
Suggestion for improvements in curriculum design and development	The institution in IQAC discussed on how the curriculum be improved and suggested some more courses of IIT spoken tutorials
Regular conduct of classes	Inadequate number of faculty is the reason in most cases. Tried to start CHB hiring processes quickly
Skill development	Online courses started
Teacher should focus on student's all over growth & industrial knowledge.	Attempts were made for tie up with the industry and hospital. The tie up is made with the hospital through I transform.

**ALUMNI FEEDBACK**

<b>Suggestions</b>	<b>Actin Taken</b>
Suggestions for improvement in curriculum design & development.	Considered the suggestion and the Institution is exploring new courses to strengthen the curriculum
Include more field visits	Could not be taken up because of COVID
course can be made more application oriented.	
As an suggestion being a alumni, The institute should conduct the alumni talks to boost up the presently studying students in different fields with several opportunities available.	Departments were encouraged to increases Alumni talks whenever and wherever possible.
Industrial exposure through projects	Due to Covid Pandemic, allotment of projects to the students through Industry was not possible. However new tie ups is being explored for future.
Improve Placement Opportunities	
Practical skills are important and unless we improve curriculum and standard of teachers, students will always be left behind. We need pre-learning which is a year to prepare for bachelor's degree between 12th grade and Bachelors which will make students ready mentally and morally for undertaking a three year program.... Right now it's all learning with no objective than getting a degree and	Institution is already exploring how to increase the efficacy of the programmes particularly in view of NEP  Also organized Webinars related to this suggestion

then getting no jobs. There is no guidance for students be it anyone but I feel, it's over all standard of living that is affecting the whole system. It's about time to get a Uniform Civil Code and get reservations out of the way. There are string political reputations at stake if we do not change the value of education. Thank you and good luck.
