1. There should be a regular interview and screening process of all the teaching faculties in presence of selected students to make sure the faculty is dedicated to their domain as well as are making an active effort to make the institute a positive space for students. 2. The institute should straight away get rid of outdated evaluation processes such as writing record books, giving theoretical assignments that can be easily copied from here and there. Surely, none of us are expecting us students to qualify to do tasks of a Xerox machine. 3. The infrastructure direly needs renovation, the ambience of almost every room is very gloomy and untidy, except of the Principal Sir's cabin's hallway and that of the Conference Hall.
Kindly give more project and real time problem to solve. ... Courses can be more research oriented. ... New technology monthly updates can be given.
