# REPORT ANALYSIS OF THE GOOGLE FORM ON AWARENESS AND PREVENTION OF SEXUAL HARASSMENT

CONDUCTED BY COLLEGE COMMITTEE ON PREVENTION OF SEXUAL HARRASSMENT

Survey conducted on girl students for analyzing the impact of awareness programme. The form was filled by the students once before and once after the programme was over. 28 students answered the question put up in questionnaire form. Almost 94.7% students rated positive awareness of laws of protection for women against sexual harassment. Knowledge of the Act of 2013, Vishakha guidelines are now implemented are to prevent, prohibit and for safety for girl students in HIE's. Awareness created in this context, formation of ICC, objectives and the working of ICC, from lodging a complaint to awareness of various behavioral acts of misconduct including simple/mild form of eve teasing to physical contacts and advances are nothing but different forms of mild to serious misconduct.

The invited speaker in this reference illicited certain cases and authoritatively narrated cases she handled in her college where she herself is dealing with it. In this regard she advised the students not to fear, but insisted that they develop courage through self-care, proper behavior, language used & proper use of technology, conscious use of it, enabling to respect oneself & protect self.

The survey form also stressed on awareness of terms like "gender bias", "gender sensitivity", discrimination of weaker sex, and gender equality. The attempt to this was to find out whether the adolescent is aware and to sensitize to bring out change in self-perceptions in this regard. The report finding says that students believed that to some extent attitudinal change, gender sensitization, respect towards girl/women folk could reduce crime against her.
