Nagpur University was established on 4th August, 1923 with six affiliated colleges and 927 students. During 1947, the number of students increased to about 9000 accompanied by the improvement and diversification of curricula and expansion in the range of subjects. It was in 1958 that some new Departments in Arts and Social Science faculties were opened; the major expansion, however, came in 1963 when several science and other teaching Departments were started. The Departments were shifted to spacious buildings in the main campus in 1972-73. During ninety years of its existence, the University has progressed satisfactorily and doing well in the midst of constraints of different sorts. This has been possible because of futuristic vision about higher education of the personalities who adored the chair of Vice-Chancellor of this University. Their determination and dedication helped a lot in progress of this University.

Presently University comprises of Thirty-nine Postgraduate Teaching Departments (PGTD), three Constituent Colleges/Institutions (Law college, Laxminarayan Institute of Technology, and College of Education). Eight hundred forty-two colleges are affiliated The Department and conducted college/Institution buildings are spread over in 11 campuses with an overall area of 318 acres. Following programs under various faculties are run through the above-mentioned PGTD, Conducted College and Affiliated Colleges.

Department of Physics

The Department came into existence in 1963 along with other Science Departments for imparting post-graduate education and for promoting research. Research activities of the Department are mostly focussed on materials science research and have grown steadfastly since its inception, expanding into areas of functional materials for Fuel Cell, batteries, Sensors and Energy harvesting materials and So on. Department is actively involved in R & D as well as consultancy project and has also collaborations with several R & D organization in the India namely UGC-DAE-CSR, Indore; RRCAT, Indore; NEERI, Nagpur; IISER, Pune etc as well as outside the India with Penn State University, State College, USA; Institute of Energy and Climate change, Forchunszentrum Julich GMBH, Germany. The laboratories are adequately equipped with State-of-Art facilities. Infrastructure comprises of wide variety of structural and Electric and dielectric Characterization for AC/DC measurement technique with high temperature characterization capability. Computational facility workstations with advance configurations are also available.

“National Seminar on Ferroelectrics & Dielectrics” (NSFD-2021) biennial Dielectrics Conference, initiated by the Dielectrics and Ferroelectrics group in India in 1980; has successfully completed 40 years of journey since its humble beginning at Indian Institute of technology Delhi. Dielectrics class of materials also referred as polar materials, include Piezo, pyro and ferroelectrics materials, play key role in modern technology, finding its applications in data storage, energy harvesters and wireless communications. This symposium will address developments in materials for a wide range of related technologies. It will bring together expert from diverse discipline and broadly cover materials and device related in the field. Special tutorial sessions will be arranged for young researchers and initiators to provide core research information. The Topics of Seminar is broadly classified into five areas.

I. Fundamentals of dielectrics, ferroelectrics & related materials

- Relaxor and birelaxor ferroelectrics/dielectrics and disorder effects
- Ferroelectric tunneling junctions, ferroelectric and magnetoresistive barriers.
