Respected Dr. Akhilesh Sir,

Trust you are doing well. Greetings of the day!

Based on your discussion and interaction with Mr. Rajesh, Sh. Gopal Sharma and self during a simulation awareness workshop earlier and on 9th dec,2022, I am writing this email to share the Commercial proposal for Simul8 Educational Version that we believe would be a good investment for Dharampeth Science College faculty and students.

It will help students explore Discrete Event Simulation techniques. As Industrial Engineering is picking up at a fast pace in India, more and more companies setting up Manufacturing facilities in our country, simulation as a tool is becoming more popular and is used for planning, bottleneck analysis and process improvements. Having exposure to such a technique in BSC, MSC program will help students to stand out in the placements process.

The pricing indicated in the proposal is very minimal compared to the features the educational version of the software offers. It is also only a one-time investment with life-long validity and no AMC charges going forward.

We are sure this proposal will find the appropriate interest at your end.

We are with you all the time in taking this engagement forward and make it a good success.

With Warm Regards
