

Dharampeth M. P. Deo Memorial Science College, Nagpur
Strategic Plan and Deployment
(Any Additional Information)
2022-23

The College Management believes in setting up perspective plan for excellence in academic development. Accordingly, the long term and short term goals in different areas of college working is set up. These perspective plans are reflected in the annual action plans. The IQAC decides the perspective plan which is to be approved in the CDC (College Development Council) meetings. Keeping in mind the NAAC Peer Team 3rd Cycle recommendation, the IQAC set up the following goals which were approved of by the CDC and also documented as part of the AQARs:

- To start new certificate courses.
- To strengthen the ICT mode of teaching
- To encourage the faculty for research work.
- To strengthen extension activities.
- To make the campus Wi-Fi.
- To mobilize funds

Keeping in mind these goals the institution prioritized the need of starting new courses with relevance to current trends. This would help the college to become a reputed educational institution in Central India and offer an excellent academic growth for students. In the year 2018-19, the proposal for introducing the new courses was discussed in the IQAC meeting and then put forward to CDC for approval. The CDC, after minutely going through the proposal approved the same and gave permission to apply for additional section for M.Sc. in Mathematics. The proposal was made in accordance with the guidelines of the UGC and the affiliating RTM Nagpur University. The college thereafter duly forwarded the proposal to the RTM Nagpur University for approval and pursued the process. The RTM Nagpur University sanctioned the introduction of new course, M.SC Chemistry. This course was started from the session 2022-23. The programme outcome of this course is to increase the employability of the students with good knowledge of the subject in addition to the certificate courses.

Apart from this activity, the college has achieved most of its goals set by the college in the action plan. For example, college introduced 14 short online certificate courses in affiliation with Lifelong learning department of RTM Nagpur University. Due to COVID pandemic restrictions there was substantial increase in the ICT mode of teaching. Strengthening Wi-Fi connection in the campus. Due to the change to the online mode, the College has organized several international and national level webinars, online guest lectures etc. This way, it has not only addressed its own students but also all its stakeholders. It has also signed new MOU with Metallurgical company which will help to provide added inputs to the stakeholders.
